

New Product – Key Facts

Product:

IRWIN Quick-Grip XP

- Maximum Gripping Strength With One Hand
- As the category creator of the One Handed Bar Clamp section, IRWIN is now launching the first OHBC that can be used for gluing applications

Increased clamping depth 95 mm vs. 84 mm of current Quick-Change
 for clamping jobs

2,5 x clamping force vs. Quick-Grip and competition
 to use for clamping jobs rather than using it as a holding tool

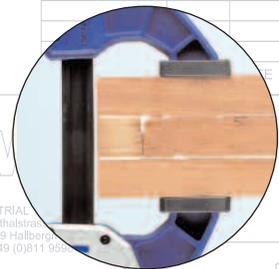

Free sliding I-Beam bar
 to pre-adjust the clamp

QUICK-CHANGE™
 Jaw release clip mechanism converts easily to a spreader

NERM = Non Explosive Release Mechanism
 for a much smoother release

Strong I-Beam bar
 to prevent the bar from bending under load
